

LYNCH
MEETING HIRE DEMANDS

PLANT GUIDE

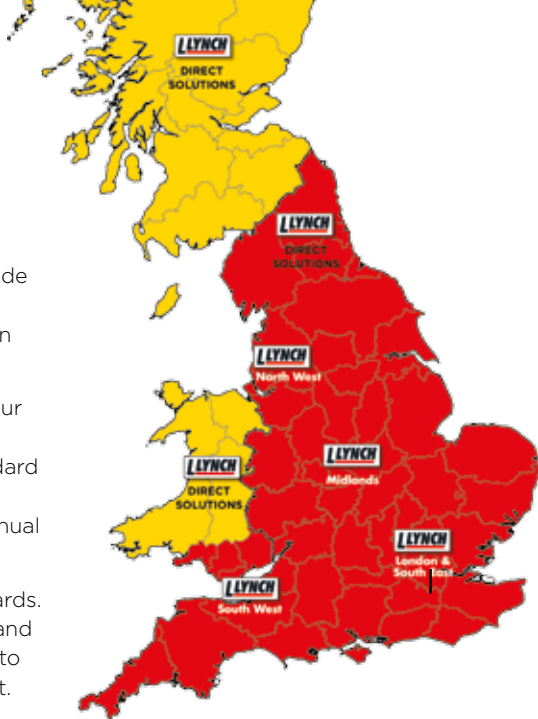

WELCOME TO THE LYNCH PLANT GUIDE

This booklet gives you an indication of the wide range of machinery currently available within the Lynch Fleet - over 1,800 machines with an average age of 18 months.

At Lynch, we have a strong commitment to our customers which ensures we can provide the best service at all times. We deliver this standard by employing highly-skilled, well-trained and fully motivated staff, as well as through continual investment in machinery and equipment.

Our hire team is trained to the highest standards. and our operators deliver superior reliability and productivity. We all work together as a team to meet the high level of service that you expect.

For more information or to place an order call
020 8900 0000 or email enquiries@l-lynch.com

LYNCH 24 HOUR EMERGENCY CALL OUT SERVICE

Lynch Plant Hire and Haulage can provide a 24 hour plant service to meet all your site needs, including a full range of equipment and attachments, either operated or self-drive. All our operators and fitters are supplied with PTS, LUL, BAA, EUSR and water board safety passports and all industry sectors are catered for including the utility, rail and aviation sectors.

MINI & MIDI EXCAVATORS

Extras available on excavators are: slew restrictor (8T only), height restrictor, safe load indicator, Chelwyn valves, spark arrestors, check valves on dipper, offset boom, dozer blade, cab guards, demo cage, rotate circuit, green beacon seat belt warning system and GPS tracking system.

Weight	Width	Height	Dig Depth
0.75T	700-860	2230	1720
1.5T	900-1240	2340	2310
3T	1500	2360	2540
5T	1960	2555	3380
8T*	2200	2540	4600

SECURITY

- All our new Mini, Midi and Large Excavators are fitted with trackers as standard
- Machines are fitted with Mecklock security or manufacturers individual /key immobiliser
- Equipment is 4-star rated Thatcham approved
- Lynch is a member of the CESAR protection scheme

For more information or to place an order call
020 8900 0000 or email enquiries@l-lynch.com

HEAVY EXCAVATORS

Extras available on excavators are: slew restrictor, height restrictor, safe load indicator, Chelwyn valves, spark arrestors, check valves on dipper, dozer blade, rubber tracks (14 & 20T only), cab guards, demo cage, rotate circuit, green beacon seat belt warning system and GPS tracking system.

Weight	Width	Height	Dig Depth
15T	2590	2800	6000
22T	2990	2930	6730
30T	3200	3265	7305
38T	3350	3225	7455
45T	3350	3680	7080

All machines piped with two way breaker pipe work. Additional hydraulic lines available.

Tier 3B Low emission engines, up to 18% fuel saving when operated in correct mode.

Measurements given are for the most common brand and given in millimetres (mm) unless otherwise noted.

VISIT US ONLINE: WWW.L-LYNCH.COM

WHEELED EXCAVATORS

Extras available on excavators are: slew restrictor, height restrictor, safe load indicator, Chelwyn valves, spark arrestors, check valves on dipper, offset boom (9T only), dozer blade, cab guards, demo cage, rotate circuit, green beacon seat belt warning system and GPS tracking system.

Weight	Width	Height	Dig Depth
9T	2330	2970	3895
15T	2500	3065	5030
16T	2500	3065	5020
19.3T	2540	3136	5725
22.3T	2500	3170	6010

All machines piped with two way breaker pipe work. Additional Hydraulic lines available.

OPERATORS

All operators available with our core products have CPCs and many are available with PTS, LUL, Airport and Nuclear passes.

For more information or to place an order call
020 8900 0000 or email enquiries@l-lynch.com

REDUCED ZERO TAIL SWING EXCAVATORS

Weight	Width	Height	Dig Depth
3T	1500	2400	2540
5T	1960	2540	3400
8T	2200	2540	4200
15T	2590	2795	5985
24T	2990	3080	6670

We offer a range of extras including rubber tracks, slew restructure, height restructure, safe load indicator.

All equipment is tracked.

Extras available on excavators are: slew restrictor, height restrictor, safe load indicator, Chelwyn valves, spark arrestors, check valves on dipper, offset boom, dozer blade, rubber tracks, cab guards, demo cage, rotate circuit, green beacon seat belt warning system and GPS tracking system.

Tier 3B Low emission engines, up to 18% fuel saving when operated in correct mode.

Measurements given are for the most common brand and given in millimetres (mm) unless otherwise noted.
